

As a vital part of the health care continuum, we will continue to accept new residents and offer assisted living solutions to those who need them.

Our **NUMBER ONE** priority is the health, safety and comfort of our residents. To limit their exposure to COVID-19, we have implemented the following:

- Any new move-in must be asymptomatic and follow the same isolation guidelines as our residents.
- Intentional infection prevention and protocols and enhanced staff training include frequent cleaning and disinfecting at the community.
- Doors are secured 24/7.
- Visitor limitations are in action, and residents are asked to remain in their apartments.
- Communication with family members is being aided by cell phones, computer apps, Zoom, Facetime, Skype, One Day videos and other creative means.
- All outings and programs involving outside vendors have been discontinued along with communal dining. Residents are dining in their apartments.
- Additional guidance from the CDC and state and local health departments is being continually monitored and followed.

Thank you for your **SUPPORT** as we continue our mission of **SERVING** seniors in our area and within our **COMMUNITY!**

Tradition • Service • Excellence
