

COVID-19 SAFETY PRECAUTIONS ACKNOWLEDGMENT

Precautions We Are Taking to Ensure Resident Safety:

- **Practice good hygiene.** All residents should continue to regularly wash their hands with soap and water for at least 20 seconds or clean their hands with an alcohol-based hand sanitizer that contains at least 60% alcohol.
 - Residents should cover their noses and mouths with a tissue when coughing or sneezing (or an elbow if no tissue is available) and should dispose of used tissues immediately.
 - Residents should self-quarantine if they are ill and may not attend dining and lifestyle activities until they are fever free for 24 hours without the use of medications (i.e. Tylenol).

Additional Considerations for safety at our Community:

- **All residents are to wear facemasks/face coverings while at the community**
 - Face masks must be worn correctly to cover the mouth and nose
- For all communities, PPE precautions and protocols are to be followed
- All visitors, staff, and medical providers who enter the building will be screen daily upon their arrival at the community.

I understand that if I have a medical condition that is exacerbated by wearing a mask or face covering; or, if it interferes with my ability to function at my highest level or poses a threat to my safety, I will discuss this with my community's Executive Director to see what alternative options might exist.
